

# RESILIENT PASTURE SYSTEMS FOR A CHANGING CLIMATE

Thursday 3rd February 2022

As part of our Dryland Pastures Project, a paddock presentation will be held explaining the need and benefits of building resilient pastures for a changing climate. Paddock preparation for dryland pastures and saltbush establishment will be presented in a walk and talk environment.

Host, David Wilson will accompany Damian Jones (Agronomist) and experienced Landcare and revegetation leader, Stacey Brooke from Tulla Natives, to present information on the day.

The day will include

- Walk and talk field trip
- Morning tea and barbecue lunch provided (please advise of any dietary requirements when registering)

**REGISTER AT [WWW.WESTERNMURRAYLIG.ORG](http://WWW.WESTERNMURRAYLIG.ORG)
